(561) 309-0381 • nicoleotr@aol.com

**Refreshments will be provided.**

**Buddy Bike**<sup>®</sup>  
quality time quality bike

## The Buddy Bike

The Buddy Bike is a revolutionary bicycle for two that steers from the rear so a child can safely ride in front. Buddy Bike utilizes an exclusive and innovative design with an extra set of handlebars for the front rider and gears connecting the pedals of both riders. The lower front seat of the Buddy Bike allows both riders to safely enjoy the view.

## Special Needs

The unique features of the Buddy Bike offer families with special needs children a mode of exercise and transportation that has not been available until this time. Children with physical or developmental disabilities who are unable to ride a bicycle alone are able to share the experience of riding a bicycle with their parents, teachers and therapists on a Buddy Bike.

## Safety

**WEAR A HELMET!**  
We suggest bike helmets for all riders. Please bring your cycling helmets if you have them. A limited number of helmets will be provided for trial rides.

**Visit our web site for  
more information about  
the Buddy Bike and  
more events.**
